Sprint 2 Plan
Project Name: VTC
Team Name: VTC Team
Sprint Completion: 2/18/2018

Goal:

        This sprint is allocated to improve existing components of application. We will complete user account/friend system. We will also implement the uploading of media to cloud storage, as well as timed sending/reception of media.

Task Listing:

1. Allow users to choose photos to upload (5)
    a. As a user, I want to be able to choose photos from my camera storage to upload.
        i. Task 1 (3): Implement navigation in camera roll
        ii. Task 2 (3): Select photos to upload
        iii. Task 3 (1): Preview photos in camera roll
        iv. Task 4 (5): Prepare selected photos to upload

2. As a developer, I want to ensure that our cloud server allows account signup/verification, user signin authentication, and upload/retrieval of media. (All in Firebase) (6)
        i. Task 1 (3): Set up signup and email verification
        ii. Task 2 (2): Set up signin authentication
        iii. Task 3 (2): Set up media upload
        iv. Task 4 (2): Set up media retrieval
3. As a developer, I want to ensure there is a space within the app where users can find their friends and create groups.
    a. Task 1 (2) create friend page
    b. Task 2 (5) import friends from facebook database to VTC friend page
   c. Task 3 (3) Create page for friend groups

Team Roles:
1. Lizette: Product Owner
2. Michael: Developer
3. Ruchi: Developer
4. Gamiel: Developer
5. Matthew: Developer
6. Austin: Scrum master

Initial Task Assignment:

1. Lizette: (2) create friend page,
2. Michael: (3) Set up signup and email verification, (2) Set up signin authentication, (2) Set up media upload, (2) Set up media retrieval
3. Ruchi: (3) Create page for friend groups, (5) import friends from facebook database to VTC friend page
4. Gamiel:
5. Matthew:
